

walk for survival

A global march for change

TRACKER

In the wake of Covid-19, a fairer, better world is not only a matter of justice. It's a matter of life and death.

Together, we aim to complete a journey around the Earth (40,000 km).

By tracking your kms, you can show our leaders that people everywhere want a more equal, healthy and safe future for all of us - not just for a few.

Each time you walk, enter the distance and date onto the tracker below.
